Course / Degree	College / University / School	Year	Marks (%)
B.Tech (1st Sem)	Indian Institute of Information Technology, Ranchi	2025-29	70.0%
Class XII (Senior Secondary), CBSE	CBSE Affiliated School	2025	80.0%
Class X (Secondary), CBSE	CBSE Affiliated School	2023	93.0%

ABOUT ME

I am an aspiring engineering student passionate about data structures, algorithms, and technical innovation. With a solid baseline in machine learning and frontend technologies, I enjoy crafting responsive user interfaces with HTML/CSS/JS and exploring complex 3D environments and modeling workflows. Driven by continuous learning, I actively focus on problem-solving, architectural efficiency, and developing impactful technical projects.

SCHOLASTIC ACHIEVEMENTS

- **Qualified for IOQJS** (Indian Olympiad Qualifier in Junior Science) [2023]
- **School Rank 2** in NSO (SOF National Science Olympiad) [2021]
- **School Rank 1** in IEO (SOF International English Olympiad) [2021]

SKILLS & INTERESTS

Programming Languages: C, Python, HTML5, CSS3, JavaScript

Tools & Frameworks: Unreal Engine 5, Blender (3D Modeling), Git, GitHub, SQL

Core Interests: Machine Learning (ML), Artificial Intelligence (AI), Data Structures & Algorithms (DSA), 3D Modeling & Game Development

EXTRACURRICULAR ACTIVITIES

- **Competitive Programming:**
  - **CodeChef:** 2-Star Coder (Peak Rating: 1539) with over 100+ algorithmic problems solved.
  - **Codeforces:** Active Competitor (Max Rating: 966) with over 50+ problems solved.
- **3D Design & Simulation:** Enthusiast in technical environments, environment rendering, and performance optimizations inside Unreal Engine 5 and Blender.
